Says Troop Surge Is Not The Answer

Washington - STATEMENT OF CONGRESSMAN CHARLIE WILSON (OH-6)

"Sending more troops to Iraq does not address the fundamental and troubling truth. We still have no plan to win the peace.

We must support our troops and their families. That means more than just providing the right equipment and support. It also means facing the facts on the ground and putting in place the right plan for success.

The Iraq Study Group and millions of Americans have spoken out for change. President Bush needs to listen. A new plan is long overdue. It is something our troops, their family and our nation sorely need and rightly deserve."
