Wilson Responds to Recent Developments Regarding the American Municipal Power Station Project in Meigs County

WASHINGTON, DC - Congressman Charlie Wilson (OH-6) released the following statement after the recent news at the American Municipal Power Generating Station (AMPGS) project currently under development in Meigs County, Ohio:

"I am truly disappointed with the news that came out today. I have been looking forward to the jobs and economic development this project would bring to Meigs County and the surrounding area. I hope that turning this project into a natural gas combined cycle facility can become an reality. I will work with both American Municipal Power and Meigs County officials in any way necessary to make sure we can switch the direction of the project."
