Rep. Wilson Makes Statement on President's Joint Address

WASHINGTON, DC - Prior to President Obama's Address to a Joint Session of Congress tonight, Congressman Charlie Wilson (OH-6) issued the following statement:

"Tonight, I will be paying careful attention to the President’s speech. After spending the last several months listening to my constituents’ concerns about health care, there are a number of things that I need to hear. I want to make sure that however we go about reforming health care in this country, the end result will be something that is affordable and accessible for all Ohioans. I want everyone to have the security of knowing that their health care coverage will not put them in the poorhouse, that they will not be denied coverage because of pre-existing conditions, and that their coverage will not be dropped because they get sick. And equally important, we need to make sure that this plan does not add to our national debt. These are the types of common sense goals I think we should all be working towards."
